## OUR PROMISE TO YOU

We are committed to providing you a lifetime of optimum oral health with compassion & patient comfort & the best that today's dentistry offers. Furthermore, we strive for you to leave with the experience that you are an appreciated family member!

### DR. REBECCA ARMEL DDS

At a very early age, Dr. Armel observed her father, Dr. Joe Armel of Marin County, create a cosmetic dental practice based on taking care of the patient with excellence, compassion & progressive approaches. His example inspired Dr. Rebecca to choose dentistry as her profession at age 12 and to build her practice sharing many of her father's values.

Rebecca Armel is a Bay Area native, attending Bacich, Kent Middle and Redwood High Schools. She furthered her studies at California Polytechnic State University in San Luis Obispo, and graduated in 1994 with a Bachelor of Science in Biology and a minor in Physiology. She attended the University of Pacific School of Dentistry in San Francisco and graduated in 1997.

With over 11 years of dental practice experience, Dr. Armel is schooled in all facets of dentistry. She is constantly continuing her education, learning about new techniques and cutting edge procedures to offer the best quality dental care available. She is currently a member of the American Dental Association, the California Dental Association, the San Francisco Dental Society, the American Academy of Cosmetic Dentists, the California Dentist's Guild, the American Academy of Implant Dentistry and the Union Square Association.

## WHY PATIENTS CHOOSE US

"I found Dr. Armel after a bad experience (with another dentist), and I'm so glad that I did. Rebecca takes the time to explain procedures and offers her expertise without sales pressure. She and her staff are so warm and friendly. I recommend them highly".

- Gina G. (San Francisco, CA)

"Dr. Armel got me in right away for a dental emergency. I am not a full-time resident and see a dentist in another town. She made a great improvement on my smile by replacing a crown that had been there since 1983. She called me the next day to see how I was doing, and I felt that she really cared! Her assistant and office manager are also delightful - the entire experience was a pleasant one, which is not often said about going to the dentist! Thank you, Dr. Armel!"

- Sylvia Z (Austin, TX)

"Dr. Armel and her staff are friendly, professional and make going to the dentist fairly painless. The office is clean, airy and bright. The Dr. takes her time and impressively does each patient's cleaning herself! She takes care to show patient's their teeth (and any potential problems) on a large video screen and explain issues in lay terms. When I had my first cavity ever, I freaked out, but Rebecca calmed my fears and made the filling painless and easy. I highly recommend Dr. Armel!!!"

- Jenni D. (San Francisco, CA)
